Lists and Tuples

Chelsea Parlett Pelleriti

Lists

```
1  my_list = [1,2,3,4,5]
2
3  my_better_list = [1, 6.2, "no", [1,2,3,4,5]]
```

Collection

Lists are a collection, which means they hold multiple objects, and can be iterated through.

Tuples

Immutable lists (once you create it, it cannot change)

```
1    my_tup = (1,2,3,4,5)
2
3    my_better_tup = (1, 6.2, "no", [1,2,3,4,5])
```
